40 In general, the work consists of: This is a square brick chimney with a current height of 65'. In general, the work
41 consists of performing exterior and interior masonry repairs consisting of tuckpointing approximately 2,000 linear
42 feet of masonry joints and replacing approximately 200 bricks. The concrete cap shall be inspected and any cracks
43 sealed. Clean, repair, recoat and caulk existing steel tension band and light mounting plate. Recoat cleanout door
44 and door frame. Place new heat-resistant insulation to fill existing gaps at breeching inlet. Check mechanical
45 continuity of air leads down through lightning protection to ground. Apply Siloxane Water Proofing to the exterior
46 masonry after repairs are finished. Inspect chimney interior per specification.

47
48 Construction bidding documents (drawings, specifications and addenda) may be obtained only as downloadable
49 electronic files (in PDF format) from the Division of Facilities Development website. Construction bidding
50 documents may also be available at various Builders' Exchanges. Additional project bidding information, including
51 plan holders lists are available on the Division of Facilities Development public website:

The 2017-2019 Wisconsin State Budget (2017 Wisconsin Act 59) repealed Wisconsin’s prevailing wage laws. Effective September 23, 2017, state prevailing wage requirements on state building projects no longer apply. These changes take effect for projects advertised for bid after September 23, 2017. This change does not affect the Federal Davis Bacon Act requirements.

A formal pre-bid tour will not be conducted for this project. However, a site visit is encouraged. Please contact Holly Berry (holly.berry@wcbvi.k12.wi.us) to schedule an appointment.

Bidding Documents will be available online immediately upon the project being advertised for bid.
