10	All potential bidders must be certified by DOA prior to submitting bids on state construction
17	projects over \$50,000. All bids received from contractors who are not certified will be rejected. Contractor
10	certification applications and instructions for completing the form may be obtained from the DOA Website
20	DFD Contractor Certification page: https://doa.wi.gov/Pages/DoingBusiness/ContractorCertification.aspx
20	or upon request from DFDemail dfdcertification@wisconsin.gov.
21	or upon request from Dr Deman <u>undcertification@wisconsm.gov</u> .
23	Only bidders who have been certified by DOA as a qualified and responsible bidder in the HVAC
24	division of work may bid on this project.
25	division of work may bld on this project.
26	This project is being let using a new single trade bidding and contracting process. When 85% or
27	more of the construction cost of a project could be completed by a Single Trade Contractor
28	(mechanical, electrical, plumbing, or fire protection), the Department may bid and contract all work
29	of that construction project directly to a Single Trade Contractor. The State will enter into a single
30	contract with the lowest, qualified, responsible, certified single trade MEP contractor. Single trade
31	MEP contractors may bid on single trade projects up to their current division of work certification
32	level for that trade. All Work for this project will be awarded to a single trade HVAC contractor.
33	Bidders shall submit a Single Base Bid for all Work.

1 2	In general the work consists of replacement of pneumatic control equipment with low voltage DDC controls in Ainsworth Hall and the Marden Center. Reheat coils and VAV terminals will be replaced with
3	new VAV terminals equipped with low-voltage DDC control. On existing equipment to remain, the control
4	valves, pneumatic tubing, and thermostats will be replaced with low-voltage DDC equipment. All new
5	control equipment will be monitored by the existing campus building automation system installed with the
6	Moses Hall project (Project No. 14A2N). All DDC points currently monitored on an older building
7	automation system will be integrated over to the new system.
